TO: ROP/CTE Students and Parents/Guardians

FROM: Anthony W. Bauer, Director
Santa Barbara County ROP/CTE

RE: Equipment/Power Tool Permission

I would like to advise you that your child will have the opportunity to operate various pieces of power machinery while enrolled in their ROP/CTE course this year. Each student will be given training on the safe and proper use for each piece of machinery before being allowed to operate it. Although safety training is provided, the risk of physical harm is not eliminated. Therefore, we do require that each parent/guardian be notified in advanced of the student's usage of such machinery and ask that you sign the form below acknowledging such notification.

In the class, it is the student's responsibility to follow all safety rules and obey the instructor at all times. Students that intentionally abuse school property can be held accountable for the damages as a result of their actions. Additionally, students that fail to obey the safety rules may be removed from the program.

PERMISSION FOR ROP/CTE STUDENTS TO USE EQUIPMENT/POWER TOOLS

Name of ROP/CTE Class _____

Location of ROP/CTE Class _____

I hereby give _____
(Student Name)

to use machinery as a part of his/her studies in their ROP/CTE class.

I do understand the conditions outlined above and will help to ensure that my child cooperates fully so that he/she can have a safe learning environment. The student named above has my permission to participate in all course work activities throughout their enrollment in this ROP/CTE course.
